Intelligent Storage Solutions

- **Let the cabinets do the counting** - Automatic RFID data collection reads items in the cabinets every 30 minutes.
- **Fits into your existing space** - Units can be placed side by side, back to back, freestanding or recessed.
- **No maintenance** - Skytron takes care of activation, training, support and on-going maintenance.
- **Meets medical safety standards** - All cabinets are FCC and UL approved.

*Power and network requirements for all cabinets: All equipment requires electrical access (Voltage: 110-120 VAC, Current: 2A MAX per cabinet, Power: 200W MAX per cabinet), and RJ45 Ethernet data jack.*
